

SANCRYL 830-55 X

Technical data sheet

Thermoplastic pure acrylic copolymer

Delivery form :

Appr. 55 % solids in xylene

Applications :

Clear and pigmented coatings for metals
Swimming pool paints
Concrete floor sealers and paints

Product specifications :

Property	Range
Solid content	54 - 56 %
Gardner viscosity	Z3 - Z5
Gardner colour	max 1
Acid value	max 14

Principal properties :

Outdoor durability and yellowing resistance
Film hardness
Adhesion to some plastics
Water and moisture resistant.

Compatibility :

Cellulose nitrate solutions	complete
Chlorinated paraffins	complete
Cellulose acetate butyrate	limited
Polymeric plasticants	limited

Dilutability :

Xylene	complete
Ketones	complete
Acetates	complete
Alcohols	limited
