

SANCRYL 835-55 X

Technical data sheet

Thermoplastic styrene - acrylic copolymer

Delivery form :

Appr. 55 % solids in xylene

Applications :

Road marking paints
Swimming pool paints
Concrete floor sealers

Product specifications :

Property	Range
Solid content	54 - 56 %
Gardner viscosity	Z2 - Z4
Gardner colour	max 1
Acid value	max 14

Principal properties :

Abrasion resistance
Film hardness in thick films
Water resistance
Adhesion to concrete

Compatibility :

Cellulose nitrate solutions	limited
Chlorinated paraffins	limited
Polymeric plasticants	limited

Dilutability :

Xylene	complete
Ketones	complete
Acetates	complete
