

Saturated polyester resin

Delivery form :

Appr. 80 % solids in xylene

Applications :

Binder for solvent based pigment pastes.

Product specifications :

Property	Range
Solid content	79 - 81 %
Gardner viscosity	H - J
Gardner colour	max 2
Acid value	max 12

Principal properties :

Excellent compatibility with most solvent based resins

Dilutability with a wide range of solvents

Yellowing resistance

Outdoor resistance

Compatibility :

Cellulose nitrate solutions	complete
Short oil alkyds	complete
Medium oil alkyds	complete
Long oil alkyds	complete
Termoplastic acrylics	complete
Hydroxylated acrylics	complete
Can-coil coating polyesters	complete
Aromatic isocyanates	complete
Aliphatic isocyanates	complete
Amino resins	complete
Liquid and solid epoxy	complete

Dilutability :

Xylene	complete
Ketones	complete
Acetates	complete
Alcohols	complete
Glycol-ethers	complete
Acetate glycol-ethers	complete
White spirit	limited
	1 : 3 resin : WS
