

POLISAT 738-65 X

Technical data sheet

Hydroxylated saturated polyester

Delivery form :

Appr. 65 % solids in xylene

Applications :

Metal coatings :
two component polyurethane primers
machinery/general metal

Industrial wood coatings :
two component PU primers and top coats

Product specifications ;

Property	Range
Solid content	64 - 66 %
Gardner viscosity	Z4 - Z6
Gardner colour	max 8
Acid value	max 24
Hydroxyl content	2,2-2,4 %

Principal properties :

Drying speed
Medium solids
Cost effective

Compatibility :

Poliuret 775-75 AE	complete
Poliuret 780-50 AE	complete
Poliuret 760-60 AE	limited

Dilutability :

Xylene	complete
Ketones	complete
Acetates	complete
